## DRAWING WITH WIRE

...with...

## MARCUS STEEL

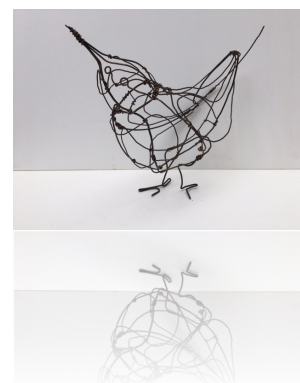

With guidance from Marcus you will explore the creative possibilities of drawing three dimensionally in space with wire. Instead of drawing with a pencil you will be drawing with wire itself, bending and twisting wires together to create intimate tactile sculptural pieces that can be as simple or elaborate as you wish them to be.

This workshop is a taster to appreciate the potential of this process of drawing with wire and will hopefully give you the confidence to develop ideas further in the future.

There are no rules, no right or wrong ways of exploring this technique and no prior experience is necessary.

Taking the theme of birds as the main subject for exploration for example, will give you the reassurance of familiarity but also the scope to create some beautifully imaginative and individualistic creations. You may wish to bring along some images of birds that you can then explore and work from.

No experience necessary.

The workshop will take place in Lockton Village Hall, All materials and small hand tools will be provided for the workshop.

Tea, coffee & light lunch provided by the Tearooms (please let us know if you have special dietary requirements in advance)

**SATURDAY 8<sup>TH</sup> APRIL 2017**  
**10.00AM – 4PM**

**£65.00 PER PERSON**

(Booking confirmed with a £25 non refundable deposit)
